Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I believe that all doses of medications  
should be individualized. What may be right for  
a large person may not be right for someone  
who is smaller. You risk either over dosing or  
under dosing which could cause serious side effects.
